Summary

Flutter-focused Mobile Software Engineer with 5 years of experience building and shipping mobile applications from concept to release. Experienced in Flutter, React Native, clean architecture, API integrations, and production-ready mobile development. Strong focus on scalable app structure, fast delivery, and full ownership from requirements to release.

Work Experience

Flutter Developer, *MST Agency* 04/2026 – Present
Dubai, Dubai (Remote)

- Developed 20+ Flutter applications/games.
- Delivered mobile apps from design to release.
- Implemented scalable mobile architectures.

Software Developer (Backend & Mobile), *DANNIE CC* 11/2024 – 10/2025
Antalya, Turkiye

- Gathered requirements with business analysts and translated business needs into ERP features.
- Developed and maintained ERP system features using a custom Node.js and WebSocket-based framework.
- Built custom REST APIs to support ERP functionality and mobile integrations.
- Designed, developed, and released a React Native ERP mobile application to Google Play.

Flutter Developer, *GoEcoFit GmbH* 11/2022 – 07/2024
Antalya, Turkiye

- Developed a scalable Flutter application for a corporate health platform.
- Integrated FHIR-based healthcare services using Medplum.
- Built REST APIs and automated backend workflows.
- Translated business requirements into production-ready features.

Flutter & React Native Developer, *Actimi GmbH* 03/2021 – 11/2022
Antalya, Turkiye

- Led development of a React Native BLE SDK supporting multiple medical devices and communication protocols.
- Implemented integrations for ECG, blood pressure, temperature, oximeter, and other healthcare devices.
- Built reusable TypeScript modules for proprietary BLE data transmission protocols.
- Developed Flutter and React Native prototypes showcasing medical device integrations.

Projects

Novidoc Games, *Independent game studio* 10/2026

- Developing and publishing casual mobile games, primarily in the puzzle and arcade genres.
- Managing the full development lifecycle, from gameplay design and implementation to testing and App Store submission.
- Experimenting with game monetization, analytics, and player retention.
- Using Flutter, Flame, and AI-assisted development tools to streamline development.

Villa Leom, *Vacation Rental Website* 11/2025

- Developed a multilingual website for a vacation rental property.
- Implemented an interactive availability calendar and booking inquiry functionality.
- Built a responsive interface for desktop and mobile devices.

Skills

Mobile Development

• Flutter, React Native

• App Store & Google Play Deployment

AI & Modern Development

- Claude Code
- Codex
- Cursor
- Bolt

Soft Skills

- Problem-Solving
- Cross-Team Collaboration
- Technical Communication
- Ownership
- Adaptability

Backend & APIs

- Node.js, NestJS
- REST APIs
- WebSockets

Methodologies

- Agile
- Scrum

Programming Languages

- Dart
- TypeScript
- JavaScript

Languages

- English (Professional)
- Turkish (Intermediate)
- Russian (Native)

Architecture & Design

- Clean Architecture
- SOLID Principles
- Design Patterns
- Dependency Injection

DevOps & Tools

- Git
- Docker
- CI/CD
- Postman
- Figma

Integrations

- Bluetooth Low Energy (BLE)
- Firebase
- Push Notifications
- Analytics & Crash Reporting

Education

Bachelor of Science (B.Sc.) in Computer Engineering, *Antalya Bilim University* 2021

Antalya, Turkiye

Certificates

- Claude Code 101 Course
- Node JS Course
- Flutter & Dart - The Complete Guide
